**What does your score mean?** (The scores have been derived from published research and clinical experience. The results are not medical advice. Only your health professional can give accurate advice.)

- **Less than “Maybe” – This is likely NOT your problem. Focus your efforts in more likely places.**
- **“Maybe” – It may be worth looking more closely at this, but focus mostly on other areas.**
- **“Probably” – This is an area that you will likely find a problem for which correct treatment will benefit you.**
- **“Definitely” – Focus on this with the correct treatment and you will realize a significant benefit!**

Some of these problems can be handled on your own using the **Six Synergistic Steps**. If you do not know what to do or if your efforts are coming up short of good success, **NOW** you know where you need the most assistance.
